9. In section 21 of the principal Act, in sub-section (2),—

“(a) the powers and duties of the Director-General of Lighthouses and Lightships and Directors and Deputy Directors-General of Lighthouses and Lightships;”;

(ii) after clause (b), the following clause shall be inserted, namely:—

“(bb) the manner in which the light may be removed and the height of the building, structure or tree may be reduced under sub-section (5) of section 8A;”.

STATEMENT OF OBJECTS AND REASONS

The Lighthouse Act does not provide an independent definition of "sailing vessel". Therefore, it has become necessary to include in section 2 a definition of the expression "ship" to the effect that "ship" includes a sailing vessel.

2. Consequent upon the change in the designation of officers mentioned in sections 3, 6 and 21 of the Act, it has become necessary to substitute the same by appropriate designations presently in vogue.

3. At present there is no provision in the Act to preserve the validity of the acts or proceedings of the Central Advisory Committee appointed under section 4(1), from challenge on the ground of existence of any vacancy in or defect in constituting the Committee or any irregularity of procedure not affecting the merits of the case. A new section 4(4) for this purpose has been proposed for insertion in the Act.

4. The Lighthouses and other aids to navigation are vital for the shipping traffic and it is imperative that their functions should in no way be allowed to be obstructed. Since the Act does not contain any provision for the removal of obstructions, it has become necessary to confer powers in this behalf on the Central Government by incorporating suitable enabling provisions in the Act. The new section 8A is proposed to be inserted for meeting such contingencies.

5. According to section 10(1) of the Act, as amended in 1976, the maximum rate at which light-dues may be levied is Rs. 1.50 per tonne. The rate is not at all adequate to meet the cost of services which have to be rendered. The enhancement of the rates of light-dues by resorting to amendments of section 10(1) has proved to be a long and time consuming process resulting in a considerable loss of revenue to the Department. In view of this position, it is proposed to amend section 10(1) of the Act so as to enable the Central Government to prescribe by notification in the Official Gazette such rates as are necessary to provide for the purpose mentioned in section 9 of the Act at which light-dues shall be payable and lay such notification before each House of Parliament.

6. At present, no light-dues can be levied on the additional cargo carried on the deck and thereby a considerable amount of revenue is being lost. Accordingly, it has become necessary to amend section 12(1) of the Act.

7. The Bill seeks to achieve the above objects.

NEW DELHI;

Z. R. ANSARI.

The 14th August, 1985.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 9 of the Bill seeks to insert new clause (bb) in sub-section (2) of section 21 so as to empower the Central Government to make rules regarding the manner in which the light may be removed and the height of the building, structure or tree may be reduced.

2. This is a matter of procedure and administrative detail.

3. The delegation of legislative power is, therefore, of a normal character.

STATEMENT OF OBJECTS AND REASONS

The statutory control over narcotic drugs is exercised in India through a number of Central and State enactments. The principal Central Acts, namely, the Opium Act, 1857, the Opium Act, 1878 and the Dangerous Drugs Act, 1930 were enacted a long time ago. With the passage of time and the developments in the field of illicit drug traffic and drug abuse at national and international level, many deficiencies in the existing laws have come to notice, some of which are indicated below:--

(i) The scheme of penalties under the present Acts is not sufficiently deterrent to meet the challenge of well organized gangs of smugglers. The Dangerous Drugs Act, 1930 provides for a maximum term of imprisonment of 3 years with or without fine and 4 years imprisonment with or without fine for repeat offences. Further, no minimum punishment is prescribed in the present laws, as a result of which drug traffickers have been some times let off by the courts with nominal punishment. The country has for the last few years been increasingly facing the problem of transit traffic of drugs coming mainly from some of our neighbouring countries and destined mainly to Western countries.

(ii) The existing Central laws do not provide for investings the officers of a number of important Central enforcement agencies like narcotics, customs, central excise, etc., with the power of investigation of offences under the said laws.

(iii) Since the enactment of the aforesaid three Central Acts a vast body of international law in the field of narcotics control has evolved through various international treaties and protocols. The Government of India has been a party to these treaties and conventions which entail several obligations which are not covered or are only partly covered by the present Acts.

(iv) During recent years new drugs of addiction which have come to be known as psychotropic substances have appeared on the scene and posed serious problems to national governments. There is no comprehensive law to enable exercise of control over psychotropic substances in India in the manner as envisaged in the Convention on Psychotropic Substances 1971 to which also India has acceded.

2. In view of what has been stated above, there is an urgent need for the enactment of a comprehensive legislation on narcotic drugs and psychotropic substances which, *inter alia*, should consolidate and amend the existing laws relating to narcotic drugs, strengthen the existing controls over drugs of abuse, considerably enhance the penalties particularly for trafficking offences, make provisions for exercising effective control over psychotropic substances and make provisions for the implementation of international conventions relating to narcotic drugs and psychotropic substances to which India has become a party.

3. The Bill seeks to achieve the above objects.

NEW DELHI;

VISHWANATH PRATAP SINGH

The 18th August, 1985.

FINANCIAL MEMORANDUM

The enforcement of the proposed legislation on narcotic drugs and psychotropic substances immediately after the enactment of the Bill relating thereto in so far as the same relates to the Central Government will be done by the existing Central enforcement machinery.

Clause 4 of the Bill contains a provision under which the Central Government may, by order if it considers necessary or expedient so to do constitute an authority or a hierarchy of authorities for the purpose of exercising such of the powers and functions of the Central Government as may be mentioned in the order. This is merely an enabling provision and it is only in the light of the working of the legislation that the Central Government would be able to decide as to whether it would be necessary to constitute an authority or hierarchy of authorities and, if so, as to what would be the composition of such authority or hierarchy of authorities. In the circumstances, it is not possible at this stage to visualize the nature and quantum of the expenditure which may be involved in the event of any authority or hierarchy of authorities being set up under this clause.

Clause 5 of the Bill envisages appointment of the Narcotics Commissioner and other officers. It is, proposed at this stage to enforce the legislation through the Narcotics Commissioner presently working as such and other available machinery. No additional expenditure would, therefore, be involved on this account.

Clause 6 of the Bill, *inter alia*, provides that the Central Government may constitute an Advisory Committee to be called "the Narcotic Drugs and Psychotropic Substances Consultative Committee" to advise the Central Government on such matters relating to the administration of the proposed legislation as are referred to it by that Government from time to time. Having regard to the scheme of the constitution of the said Consultative Committee in the Bill, the Committee would mainly consist of officials. In case non-officials are appointed or services of non-officials are utilised by the Committee, some expenditure would be involved. It is, however, not possible to visualize at this stage the actual additional expenditure which may be involved on this account.

Clause 71 of the Bill, *inter alia*, empowers the Government to establish centres for identification, treatment, education, after-care, rehabilitation, etc., of addicts. This is also in the nature of an enabling provision. As far as the Central Government is concerned, it will be able to take decision regarding the establishment of such centres, only after a comprehensive review of the drug abuse situation and the arrangements and facilities already existing in this regard in the Government hospitals and institutions. However, the provision of this clause would mainly concern the State Governments.

The intention of the Government is to manage with the existing machinery to the maximum extent possible. For the reasons already stated, it is not possible to visualize the nature and quantum of additional expenditure which may be involved by reason of the provision of clauses 4, 6 and 71.

Clause 76 empowers the Central Government to make rules to carry out the purposes of the proposed legislation.

Clause 78 empowers the State Government to make rules to carry out the purposes of the proposed legislation.

Clause 83 empowers the Central Government to make any provision not inconsistent with the provision of the Act to remove any difficulty in giving effect to the proposed legislation within three years of its enactment.

The field of narcotic drugs and psychotropic substances has been a continuously developing and changing one. Moreover, it would be necessary to give effect to the fresh decisions that may be taken under the International Conventions. It is, therefore, necessary to empower the Central Government to declare any narcotic substance or preparation to be a "manufactured drug" or to denotify the same or to add to or omit any substances from the list of psychotropic substances. Thus, the delegation of power in respect of these matters is considered necessary.

Under the existing law contained in the Opium Act, 1878 and the Dangerous Drugs Act, 1930 (to be repealed) the power or control and regulation in relation to narcotic drugs vests in the Central and State Governments. It is proposed to continue the same pattern of control and regulation under the Bill.

The delegation in respect of the remaining items relates to administrative details and procedure. The delegation of legislative power involved is of a normal character.

SUBHASH C. KASHYAP,
Secretary-General.
